

## Gcom Protocol Appliance 2G Series

### Developer Instructions for Changing GPA 2Gds Network Parameters

**Note:** GPA 2Gds units are shipped with the following user names and passwords:

User Name	Password
root	none
admin	none

1. On the GPA 2Gds, log in as root.
2. To allow changes to network parameters, type:  
`mount /dev/hdb1 /etc/network -o remount,rw`
3. To reconfigure network parameters, modify the `/etc/network/interfaces` file.
4. To effect the reconfigured network parameters, reboot the GPA 2Gds by typing: `reboot`
